

## **College Webinars - Leeds & Keighley**

Due to current events, we were unable to host our March open event. As an alternative, we are hosting online webinars for all of our different campuses. The webinars will be presented by The School Liaison Team and it will be a great opportunity for potential students to gain further information and ask any questions regarding their pathway to becoming a student in September.

We will be running webinars for Leeds City College, Leeds Sixth Form College, Keighley College and Harrogate College.

The webinars will be free and all students have to do is follow the link and book their place online. Each webinar can only hold 100 listeners but we will be running sessions throughout the day.
